The master directory provides information at one glance!  
 Residents names can be printed in house on paper and used in self-letting profiles.  
 (paper, PVC-protections as well as a letter file are delivered upon request)

# Flag-, elevator- and suspended signs

Long corridors, elevators and large building complexes do require special solution with easy readable information. **informa** has a wide selection of sign types.

# Special solutions

slider systems "vacant/occupied", temporary messages with our gravity-clip profiles as well as security locking by special devices are no problem for **inform**

# Door signs for self - lettering

Very simple solution for end users but still in an elegant design!  
Low-budget product lines with no follow-up costs for the end user.

# Door signs for self lettering

More options from a combined sign to a high-quality glass sign with security locking.  
**inform** follows the requirements and the architectural design of a building.

# About **info**norm®

## **info**norm® :

- an innovative, multifunctional sign system
