Way finding system

An easy understandable system guides visitors and residents around the building complex.

The modular sign system **infoforum**® offers all elements and options to realize the entire way finding systems.

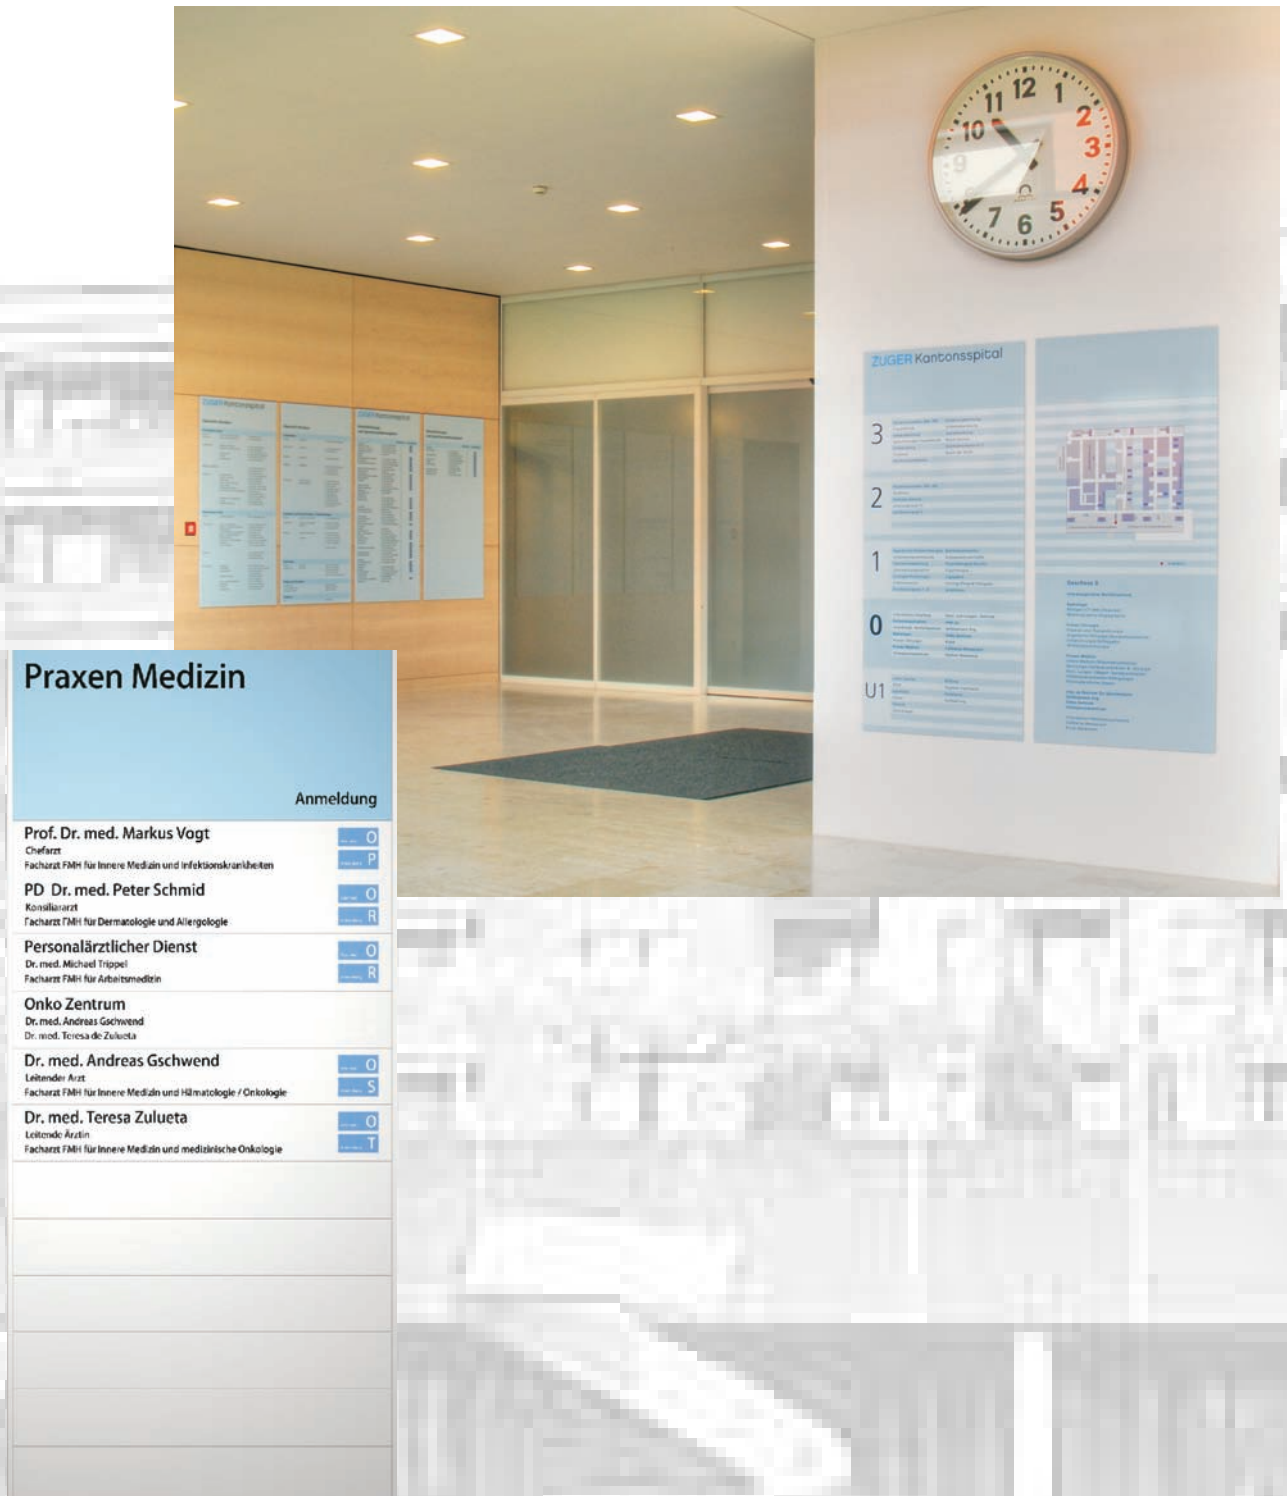

Totems

Totems/stands do welcome the visitors and are the start of a wayfinding system.

inform does offer various options and can provide assistance.

master directories

The master directories are usually placed in the entrance hall or other central destinations of a building complex.

The modular **infoNorm**® sign system offers many options and is very flexible, also for later changes and up-dates!
