Outdoor signs are the start of a wayfinding system. They welcome the visitors and give first directions.

infonorm® post and panel system. Individual execution, various colour combinations.

A good way finding system informs, provides an overview of the building complex and leads the visitors to their destination and the office or person they are looking for.

main directory

<h1>Altersheim Bühli</h1>	
Dachgeschoss	Mehrzwecksaal
4. Obergeschoss	Zimmer 401 - 410
3. Obergeschoss	Zimmer 301 - 314 Physiotherapie
2. Obergeschoss	Zimmer 201 - 214
1. Obergeschoss	Zimmer 101 - 114 Café
Erdgeschoss	Speisesaal Cafeteria Küche Verwaltung
Untergeschoss	Haushaltstraum Wäscherei Aufbahrung

A main directory gives an overview of the building and should provide directions to the various floors and elevators.

main directory with floor-information

inform[®] directories open a wide variety of options and combinations with other materials (pin-board, magnetic-wall, others)

All panels are interchangeable and are combinable or replaceable by self lettering panels.

Optional: all directories can be protected against vandalism by acrylic glass and/or special locking device.

elevator signs: keep the visitors "on track"

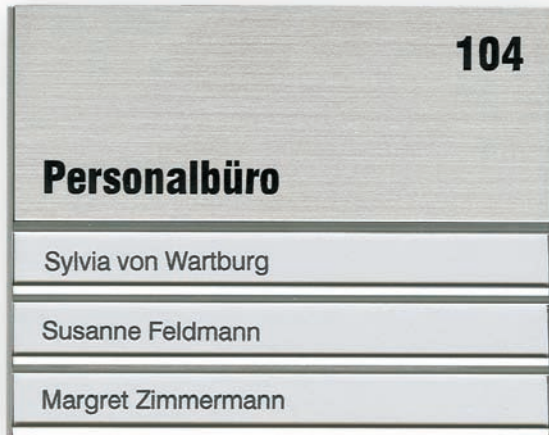

Well-placed directional signs on the floors are important.

flag signs are mainly used in long passage ways.

Suspended signs are visible from longer distances.

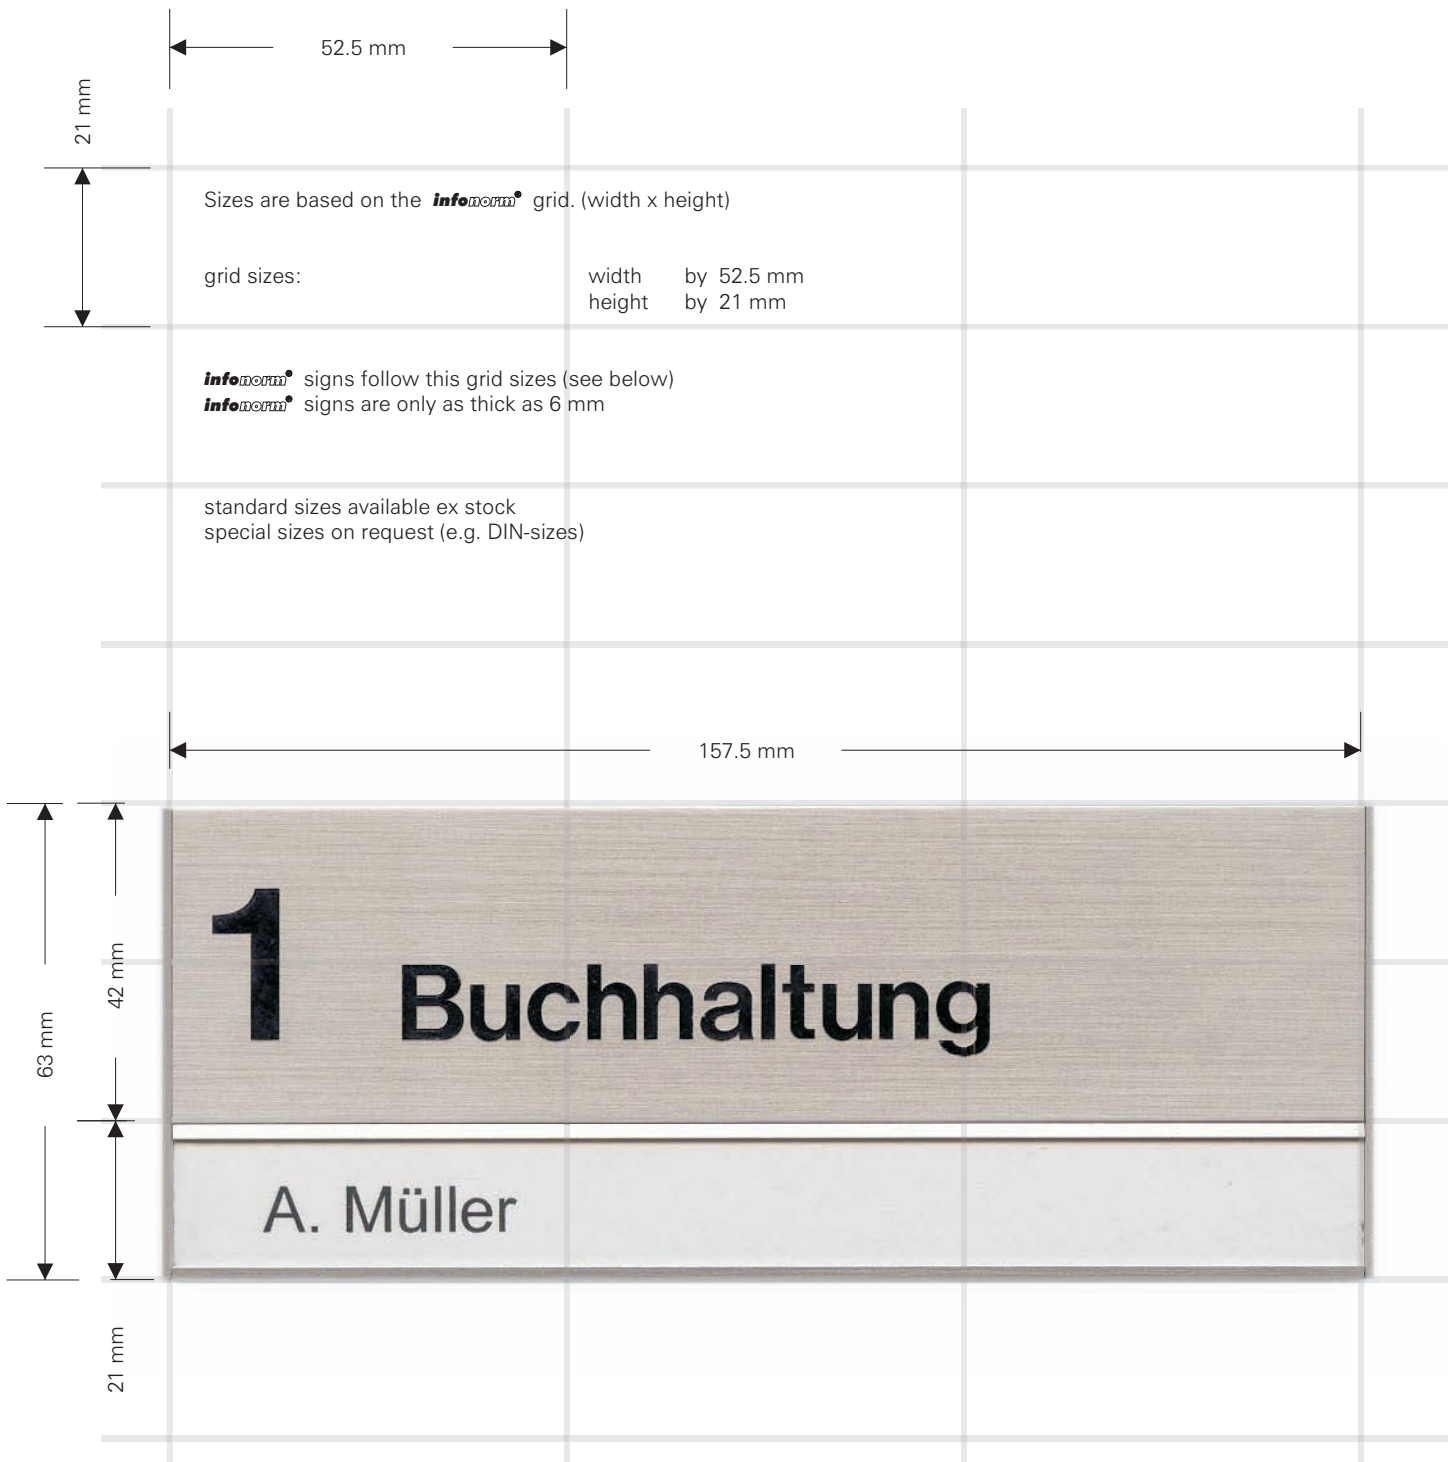

room identifications confirm that the visitor has found the final destination.
various profiles accept self lettering-inserts.

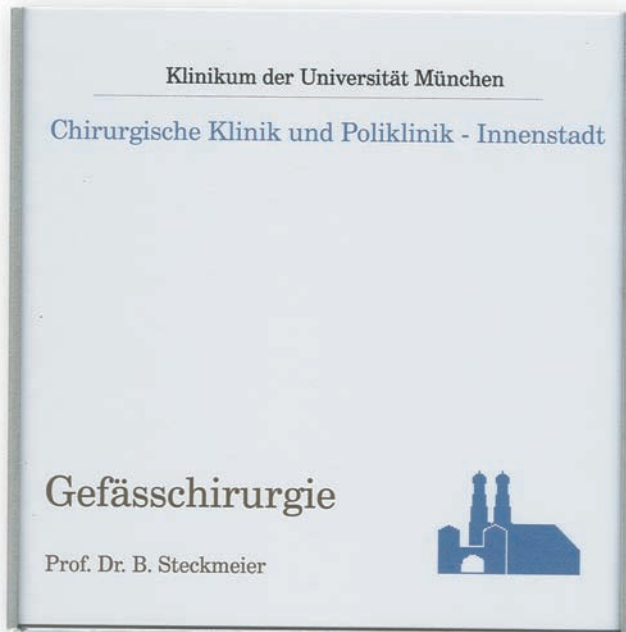

infonorm® door signs are available in various executions.
(anodised, mill finish, painted)

infonorm® door signs are combinable and provide solutions for various demands.

Self lettering by the end user is becoming increasingly popular.

infonorm® offers a wide selection of products in various sizes, finishes and various materials. (easy changeable - no tools needed)

infonorm® offers assistance and support for individual, special solutions.
